## Club Meeting Time and Location

07:30 Wednesday Morning  
Eldorado Country Club  
McKinney, TX

## Today's Program

Sponsored by Tom Parker

Todd & Deanna Moore

Lucky Layla Farms

The Four Way Test  
of the things we think say or do....

1. Is It the Truth
2. Is It Fair to All Concerned
3. Will it Build Goodwill and better Friendships
4. Will it be Beneficial to all Concerned

## **Todd & Deanna Moore – Lucky Layla Farms**

In 1936, W.L. Moore bought a small stock farm in Plano, Texas because it reminded him of his home in Tennessee. On this farm there were all types of livestock including pigs, sheep, beef cows, horses, turkey, chickens, and two Guernsey milk cows. Mr. Moore loved buttermilk and this insured the future of Guernsey cows on this farm. Guernsey cows have high butter fat and vitamin rich milk.

In the 1950's W.L. Moore's son, William Lee (Bill) Moore Jr., started Lavon Farms to grow the dairy herd to a commercial status with state of the art breeding and milking equipment to become a Grade A dairy farm. Mr. Bill Moore sold all the other livestock to focus on the nutrient-rich Guernsey milk and Guernsey cow genetics. This would be the start of the 60 plus year history of breeding and showing Champion Guernsey cows.

In 1992, Todd Moore, son of Mr. Bill Moore, choose to return to the farm and continue promoting the Guernsey cow. Todd and his father wanted to increase the dairy herd. Guernsey cows were hard to find so they bought a few Jersey cows because they were available and had comparable milk components.

In 1996, Todd took over the farm completely and has continued to take the dairy herd to new heights through artificial insemination, embryo transfer and hands-on dairy farm management. In 1999, a home-bred cow named Lavon Farms Layla was born. Todd has always enjoyed traveling the show circuit with his champion Guernsey cows but it was Layla, a 3 time National Grand Champion, that gave the dairy company its brand name.

In 2005, Todd Moore built a Grade A creamery in Garland, Texas to manufacture Lucky Layla Farms brand superior handcrafted dairy products. Award-winning golden butter, fresh and aged cheeses, and drinkable yogurts have emerged from his devotion to his champion Guernsey & Jersey cows. That first blue ribbon from the American Cheese Society made him feel like his new brand was on the right track.

Todd and his wife operate Lavon Farms dairy farm, the creamery, do the marketing and sales of their dairy products. In 2009, the Moore Family obtained a permit from the State of Texas to sell their fresh Grade A Raw Guernsey & Jersey Milk for retail at the dairy farm in East Plano.

## **Connie Yeager wins big**

In a dramatic turnaround from our last Queen of Hearts game which saw 50 cards being drawn before a Phyllis Davis was crowned the winner and received \$520, this go around, on the fifth card drawn, Connie Yeager pulled the queen of hearts from the deck and was our most recent winner of the game and a whopping \$520. Congratulations to both Phyllis and Connie for being the last two winners of our card game. Weldon Copeland will be announcing the stakes of our next game very soon.

## Foundation Approves First Global Grant

The Rotary Foundation has approved the first global grant under the Future Vision pilot, set to begin on 1 July, for a project to combat the spread of dengue fever in Indonesia.

With a total project budget of roughly US\$39,000, Rotarians in districts 7980 (Connecticut, USA) and 3400 (Indonesia) aim to help disrupt the breeding cycle of the mosquitoes that transmit the disease in Kadapiro, a community of 49,000 factory workers on the outskirts of Surakarta, Central Java, Indonesia.

Dengue fever is a painful and debilitating disease that is particularly prevalent in tropical and subtropical urban settings. With no vaccines available to halt its spread, the illness affects 50 to 100 million people annually, according to the World Health Organization, and causes about 22,000 deaths a year.

The global grant includes \$15,660 from the Foundation, which will be combined with \$7,740 in District Designated Fund (DDF) allocations from the two districts, and another \$15,844 raised by participating Rotary clubs. The project supports the disease prevention and treatment [area of focus](#).

Most of the funds will go toward hiring contractors to install white ceramic tiling on the interior surfaces of Indonesian-style cement bathtubs in 900 homes, making it easier to spot gray mosquito larvae spawned in the tubs.

### Prevention

The Rotary Club of Solo Kartini, which came up with the project idea, will work with local health officials and health care groups to educate the community on prevention measures, including emptying and scrubbing the tubs twice a week, closing the lid on water containers, and burying waste that can collect water. Rotarians will also oversee a group of monitors, who will be paid a small stipend to visit the participating homes weekly, checking on compliance and keeping records.

"To be the first [global grant approved] was a very satisfying result, for both us and the host partner," says Paul Spiekermann, a member of the Rotary Club of Westport who heads up the grant committee for District 7980. "We chose this project because of its measurability and public health benefits. Whatever the results are, it will carry us a step further in handling dengue fever."

A typical Indonesian-style cement bathtub (top), and after installation of white ceramic tile (bottom) designed to make it easier to spot mosquito larvae. *Photo courtesy of District 7980*

Spiekermann is a physician specializing in tropical diseases and has worked with Indonesian clubs on Matching Grant projects. He says that the data from this latest effort will be handed over to the mayor of Surakarta, and that the project is expected to serve as a model throughout Indonesia.

One hundred districts are participating in the Future Vision pilot, a three-year test of the new grant structure offered through the Foundation's Future Vision Plan.

Global grants are one of two types of grants under the plan. They support large, international projects with sustainable outcomes in the areas of focus, which correspond to the Foundation's mission.

Clubs and districts can use DDF or cash contributions to fund global grant activities and receive matching funds from the Foundation. In addition, clubs and districts can sponsor packaged global grants developed by the Foundation with its strategic partners.

## **Today's Thoughts in Honor of ....**

### **Forgiveness Day – June 26**

"Forgiveness breaks the chain of causality because he who forgives you -- out of love--takes upon himself the consequences of what you have done. Forgiveness, therefore, always entails a sacrifice."

### **Camera Day – June 29**

"That the outer man is a picture of the inner, and the face an expression and revelation of the whole character, is a presumption likely enough in itself, and therefore a safe one to go on; borne out as it is by the fact that people are always anxious to see anyone who has made himself **famous**. Photography offers the most complete satisfaction of our curiosity."

- **Arthur Schopenhauer (1788 – 1860)**

---

### Nine Out of Ten

I was meeting a friend in a bar and as I went in, I noticed two pretty girls looking at me.

"Nine," I heard one whisper as I passed.

Feeling pleased with myself, I swaggered over to my buddy and told him a girl had just rated me a nine out of ten.

"I don't want to ruin it for you," he said, "but when I walked in, they were speaking German."
